A Vista from the Gardens

THE W.L. CRISSEY ALPINE GARDENS

R. F. D. 1, BORING, OREGON
(Farm adjoins "Dodge Park")

CHOICE GLADIOLI
EXQUISITE IRISES
ROCK PLANTS
Standard and Unusual Perennials

13th Annual Catalog
1926
Extraordinary Gladiolus Offer

Your very particular attention is called to this offer on page 32. And don’t overlook these splendid sorts.

E. J. Shaylor  London Smoke
Crimson Glow  Gold Drop

Offered in the regular list at very low prices. They are unusually effective in the garden or cut.

A Few Iris Bargains

COLLECTION A—10 SORTS FOR $2.50, PREPAID

My gardens contain over one hundred varieties and if selection is left to me I shall be glad to send 10 excellent kinds, all charges prepaid, for $2.50, and promise a value considerably in excess of the remittance.

COLLECTION B—10 CHOICE IRISES FOR $5.00, PREPAID

If your garden space is limited, or you prefer choicer kinds, let me send you 10 of the really fine ones for $5.00, charges prepaid. Here again I promise value much in excess of the special collection price.

Collections A and B for $7.00

COLLECTION C—7 SPLENDID SORTS FOR $7.50, PREPAID

These will give you a collection both beautiful and distinct, at considerably less than the regular price. See description on pages 5 to 7.

THE W. L. CRISSEY
ALPINE GARDENS
1926

GLADIOLI were once the supreme attraction in my gardens, but now they are only one feature, with numerous beautiful perennials and irises clamoring for attention, and rock plants in great variety displaying their charms of foliage and flower in narrow beds, for all the world like a huge and gorgeous tapestry thrown upon the ground.

It was the addition of these rock plants to the gardens, coupled with the scenic location of the place itself in the very foot hills of Mount Hood, which suggested that "Alpine Gardens" would be a much more appropriate name than "Gladiolus Farm." A little explanation due old friends who may be a bit puzzled by the change on the cover of this booklet.

A certain and special interest attaches to the buying of plants for your garden, which is not associated with any other purchase, and perhaps this may be enhanced by my telling you something of the environment in which the plants are grown. My gardens occupy a "bench" or shelf of several acres, falling off very abruptly on three sides to the Sandy and Bull Run Rivers, two dashing mountain streams some three hundred feet below. As may be imagined, wonderful views of the rivers and their canyons are had from the gardens.

A friable and almost virgin soil, perfect drainage and a very long and cool growing season combine to produce plants of exceptional vigor, and bulbs which are veritable storehouses of brilliant bloom. My gardens are neither over-fertilized nor over-watered, which means that when the plants are given a home in YOUR garden they will respond in the most gratifying way to any special attention.

Of course I know it's very much the vogue to introduce flower catalogues with poetry now-a-days, but there's plenty of both poetry and prose in gardening itself, so I shall assume you are more interested in reading about the plants I offer and shall proceed to tell you about them. Not a few are decidedly out-of-the-ordinary, well calculated to add distinction to any garden.

GLADIOLI

For sentimental reasons, considering that they were my first love, the "glads" shall come first. As easy to grow as onions, (if you were ever guilty of such a plebeian task), as exquisite in their colorings as orchids (if you were ever guilty of such patrician indulgence) gladioli give their wonderful flowers in mid-summer, when there is such a scarcity of color in the garden. As cut flowers they are unequalled, often retaining their beauty for more than a week. Heavy glass frogs and bowls of crystal and pottery are particularly satisfactory in the arrangement of the spikes to best effect.

The desirability of gladioli bulbs does not depend upon size, but rather upon the conditions under which they are produced and cured. My own bulbs are not so large as usual this season, owing to a very dry summer, but they are full of vitality and will give you the finest of flowers. Bulbs slightly undersize are always to be preferred to extra large ones. Give a location in full sunshine, plant the bulbs 5 to 6 inches deep, anytime after the ground can be nicely worked until the first of June. Fairly early planting gives best spikes.
GLADIOLI

Each Dozen

**Alice Tiplady:** A glowing saffron-orange makes this one of the most striking flowers among the dainty Primulinus Hybrids .......................... .10 1.00

**American Beauty:** True American Beauty Rose color, relieved by a soft yellow throat. Often a full dozen immense flowers are open at one time, making a single spike a whole bouquet. .75 7.50

**Anna Eberius:** Deep, velvety purple with magenta cast. One of the finest dark ones and very popular .25 2.50

**Bengal Tiger:** Old rose ground with barbaric striping in darker shades. A high-class exhibition variety of very recent introduction........... .35 3.50

**Blue Jay:** Soft blue with deeper markings and a white splotched throat, the whole almost an iris effect. Very tall and large. True Blue Jay is rare .20 2.00

**Butterfly:** Brilliant salmon, throat doubly blotched with deep maroon, the whole appearance reminding one of a butterfly in flight. Extra fine in garden masses. $7.00 a hundred............. .10 1.00

**Cameo:** "Doesn't that remind you of a handsome old cameo?" It does. The flowers are large, many open at a time. Unique............. 2.00 20.00

**Catharina:** A soft gray blue, with deep blue blotch in throat. Distinctive ...................... .20 2.00

**Charlemagne:** A French kind of exceptional coloring. Sunrise red with darker pencillings. Very tall and vigorous ............... .30 3.00

**Conspicuous:** Light blue, yellow blotch with dark border ....................... .15 1.50

**Crimson Glow:** The color is extra fine the size of the flower immense—6 inches in diameter is not unusual. 15c each, $1.25 the dozen, $9.00 the hundred.

**David Starr Jordan:** One of the best early reds. Usually each spike has several branches, materially prolonging the display in the garden.. .40 4.00

**D. J. Whitney:** Exquisite salmon flesh. Will command attention in any collection. Robust............. .75 7.50

**Dorothy Wheeler:** Delicate rose pink Primulinus type ...................... .20 2.00

**E. J. Shaylor:** Large flowers of deep rose color. It has an award of the British Horticultural Society to its credit—you know it's good. 15c each, $1.25 the dozen, $9.00 the hundred.

**Etendard:** Brilliance and delicacy combine in this sort, with blush petals displaying two vivid crimson blotches outlined in clearest yellow. From France ...................... .20 2.00

**Evelyn Kirtland:** A grand coral pink, enhanced by deeper shade on lower petals. Finely shaped flowers on long spike ..................... .15 1.50

**Flora:** Clear light yellow. Large flowers of excellent substance. Tall ...................... .20 2.00
Gallienni: High-class French novelty. Clear, soft red merging into a white throat overlaid with violet. This harmony of coloring is unduplicated in any other gladiolus................................. 5.00

Gold Drop: A clear yellow "'Prim'" of very large size. If you like soft pastel shades for your house, plant these generously. 15¢ each, $1.25 the dozen, $8.00 the hundred.

Golden Glory: Finely ruffled, massive yellow... .25 2.50
Golden Measure: The finest large flowered, rich yellow gladiolus achieved. Tall and robust, often throwing two spikes from a single bulb. .25 2.50
Golden West: An orange-red, much like a tiger-lily... .15 1.50
Gretchen Zang: Melting pink, with just a touch of scarlet on lower part of the flower. Late planting of this variety gives the choicest blooms ... .10 1.00
Halley: Coral pink and early. The yellow throat has light red lines. $5.00 hundred.......................... .10 .75
Herada: Clear mauve, as charming as it is unusual. The flowers are large........................................ .10 1.00
Jack London: Light salmon with orange flame stripes. The flowers are big, the spike long... .25 2.50
Jewel: A Primulinus type of moderate size but surpassing delicacy of coloring. Soft yellow and pink. It is extra fine....................... .35 3.50

London Smoke: In this we find those dull, lovely ashes of roses shades which are so unique and so strongly appealing to the discriminating taste. Try a few in a room with oriental coloring. 25¢ each, $2.00 the dozen, $14.00 the hundred.

Louise: Handsome flowers of clear lavender, deeper throat. Arrange with pink physostegia from your perennial garden. The combination will delight you......................... .15 1.50
Majestic: Clear orange pink with creamy mid-rib in each petal. Flower large and open. Exceptionally pure color tone...................... .25 2.50
Marshal Foch (American introduction): Soft salmon pink, almost a self color, and very beautiful. Has taken prizes at many exhibitions.... .25 2.50
Maude Fay: Clear Cattleya pink, like a huge orchid........................................... .25 2.50
Mistland Lassie: New. A huge white flower merging into the most delicate lavender. Ruffled. Charming in every way. The stock is limited .50 5.00
Mrs. H. E. Bothin: Pale pink with crimson throat, the petals heavily ruffled. This flower never fails to arrest attention....................... .25 2.00
Mrs. William Kent: Fawn shading into rose. Strong growing ........................................... .25 2.50
Mrs. Frank Pendleton: Pink with crimson blotch, like an immense Lady Washington geranium. .10 1.00
Mrs. Frederick Peters: Largest and finest lavender on the market. It is a novelty of great merit.......... .35 3.50
Each Dozen

Mrs. John R. Walsh: A pink and crimson flower of such vigor, size and beauty that it is in a class of its own................................. .50 5.00

Muriel: Finest blue of all for garden effect. It is wonderfully good looking when cut, as well... .25 2.50

Pola Negri: Apricot flushed with pink, an exquisite combination........................................... .50 5.00

Pride of Lancaster: A shade between orange and salmon. Ruffled. Tall, with many flowers open at one time...................................................... .35 3.50

Primulinus Butterfly: An extra large "Prim" of pale salmon, ruffled....................................... .15 1.50

Primulinus Hybrids: Soft yellows in combination with orange, pink, terra cotta, rose and similar shades make these distinct. Flowers are of moderate size, hooded in shape and often heavily ruffled. The strain offered is a superior one. Plant generously (not less than 50 if you have the room) and arrange in clear glass bowls. $5.00 hundred................................. .75

Prince of India: The aristocrat of the garden. A background of ashes of roses, markings of dull blue and smoke-gray combine in subtle harmony.............................................. .50 5.50

Prince of Wales: Clear salmon, with an apricot undertone like the Ophelia rose........................ .10 1.00

Principine: Scarlet with white throat. A gorgeous "high-light" for the garden, especially in masses. $5.00 hundred ............................................................ .10 .75

Red Amaryllis: Deep crimson flowers of immense size. Always a center of attraction at exhibits, where almost every order taken included it ......................................................... .20 2.00

Richard Diener: Rich salmon rose, large flowers and many open at a time. This is one of the most beautiful gladioli known................................. .50 5.00

Rose Ash: Ashes of roses, the softest and most pleasing shade imaginable. As distinctive as it is good looking................................................................. .25 2.50

Rose Glory: Deep rose, heavily ruffled.......................................................... .40 4.00

Rouge Torch: A little French gem. Blush petals with a tongue of vivid crimson on the lower ones. Very early blooming. $5.00 hundred.................. .10 .75

Sans Pareil: To say that this flower is pink with a white throat conveys little idea of its remarkable beauty. The pink is of amazing clarity and softness, the white is purity itself. The flowers are large............................. 2.50 25.00

Scarlet Princeps: Particularly good against a dark background of shrubbery or lattice. If you like an intense red, include this......................... .15 1.50

Schwaben: Heavy spikes and immense flowers of waxen yellow, as impressive as lilies in the field .10 1.00

Sheila: Pale, clear salmon pink. Very large flowers and vigorous growing................................ .25 2.50

Topaz: A dainty Primulinus type, a blending of salmon and buff........................................... .10 1.00

Violet Glory: Deep violet flowers with ruffled petals.................................................. .25 2.50

War: Crimson, a color always good with autumn decorations. Late flowering and universally liked........................................... .10 1.00
White Glory: A distinct blue marking in the throat gives pleasing emphasis to the white ruffled petals................... .25 2.50

Named Mixed: Made up of remnants and accidental mixtures, many extremely desirable sorts are embraced in this. An exceptional value. $3.50 hundred .................................. .50

Note—The size and beauty of the flower does not depend on the size of the bulb. Some varieties just naturally produce larger bulbs than others.

IRISES—Germanica

No other hardy plant is getting quite so much attention nowadays as the Iris, and if you have seen an Iris-bordered path in June, flaunting its regal purple and delicate lavender and rich bronze in the spring sunshine, or have had the privilege of viewing a collection which included some of the magnificent new introductions from France and England and our own American originators, you will admit there is ample reason.

Iris increase rapidly and soon form handsome clumps. They are transplanted in early spring or early fall with equal certainty of thriving in their new locations, but fall planting gives greater assurance of flowers the first season. The roots should not be set too deep—a couple of inches of soil to cover is sufficient. They require good drainage and prefer full sunshine. Manure is particularly distasteful to them and often fatal, but bone-meal and air-slaked lime are excellent. June is the month of most prolific bloom.

Note—July delivery only on those marked with an *. All others at any desired time.

Each Dozen

Afterglow: Grayish lavender merging into soft yellow. Much admired. A generous increaser.... 1.00 10.00

Albicans (Princess of Wales): A large white flower of fine form........................................ .25 2.50

Alcazar: Standards light blue violet, falls rich purple ......................................................... .50 5.00

*Anna Farr: Creamy white, daintily pencilled blue at the edges, prominent golden beard. Quite tall ................................................... 1.00 10.00

Ann Page: Big, pale blue flowers on very tall stems. Exceptionally fine shape and profusely borne. A high class novelty which has stood the test of several years’ introduction....... 7.50

*Aphrodite: One of the most sensational irises as yet originated. The flowers are an exquisite pale pink, with lemon beard and white haft. Very tall and very lasting. The demand far exceeded the supply of stock this past season. 25.00

Archeveque: Velvety violet purple, distinctive in any collection ............................................. .50 5.00

*Asia: A very large flower of lavender and buff, perfect shape and extremely heavy substance. One of the finest irises obtainable. ......................................................... 4.00

*Brandywine: Standards and falls of a wonderful tone of blue, with conspicuous beard of golden yellow................................................... 2.50

*B. Y. Morrison: Standards bright lavender, falls deep purple edged with a broad band of lavender .................................................. 1.50
Caterina: Huge flowers of soft, silvery lavender, on very tall stems. Delicious fragrance. Multiples slowly ........................................... .50 5.00
Cluny: Delicate blue lilac, the falls lightly striped with brown ......................................................... 1.50
Crimson King: Very early and rich in coloring. In sunlight has a crimson cast ........................................... .50 5.00
Crusader: A beautiful intense clear blue, the standards a little lighter than the falls. Free blooming ............ 1.50
Dejazet: Bronze-rose is the general effect of this unusual flower ......................................................... 1.00
Flavescens: Soft, sulphur yellow throughout. Free bloomer .................................................................. .25 2.00
Fro: Standards orange, falls mahogany. The best of its coloring .............................................................. .35 3.50
Germanica: A rich deep purple flower, large and early. Especially good for naturalizing. $6.00 the hundred .... .25 1.50
Gold Crest: Flowers a bright violet blue, with brilliant orange beard in striking contrast. One of the finest .... 1.50 15.00
Goliath: Standards an olive-tan, falls reddish purple. Subdued coloring; but very pleasing. Seldom seen ...... 1.00 10.00
Her Majesty: Impression given by this flower is a deep pink. Plant with Queen of May ............................ .25 2.50
Isolene: Standards silvery lilac, falls purplish old rose. As fine as it is unique .......................................... .50 5.00
Juniata: Clear deep blue, tall and vigorous ......................................................................................... .35 3.50
Kathryn Fryer: Standards yellow, the falls velvety maroon. Many flowers on tall stems. Very brilliant. Late ....................................................................................... 2.00
Kharput: A lovely combination of violet and reddish purple ................................................................. .30 3.00
King of Iris: Standards clear yellow, falls maroon margined gold. Striking ................................................... .35 3.50
Kochii: Extremely early, very deep claret purple. Buds are coal black ........................................................ .35 3.50
Lent A. Williamson: Standards soft violet, falls royal purple with velvety texture. Tall and large ............... 1.50
Leonidas: A beautiful combination of light and deeper blue ................................................................. .50 5.00
Liberty: Rich blue, a trifle darker than Juniata. Plant the two together, with Pallida Dalmatica, if you want something fine ................................................................. .40 4.00
Lohengrin: Pinkish mauve, which is most pleasing ................................................................................. .40 4.00
Lord of June: Standards lavender blue, falls light violet blue, A frequent prize winner .............................. 1.50
Loreley: Standards light yellow, falls purple merging into canary. Standards are often splashed with purple. Very gay ................................................................. .25 2.50
Magnifica: Standards light purple, falls deep purple. Massive flower. One of the much-discussed new ones .... 3.00
Ma Mie: White, suffused with the daintiest blue ...................................................................................... .50 5.00
Mauvine: Standards mauve, falls a few shades darker .............................................................................. .75 7.50
Maori King: Standards bright yellow, falls crimson, bordered gold. Late and dwarf. Excellent to use in front of taller sorts ............................................................................... 35 3.50
Monsieur Chereau: Bronze and old gold, with a
glow hard to describe. Dwarf .......................... 25 2.50

Monsignor: Standards satiny violet, falls crim-
son purple, margined lighter ........................... 35 3.50

Mrs. Alan Gray: Delicate orchid pink, frequently
blooming a second time in the fall .................. 40 4.00

Nibelungen: Standards fawn with olive tint; falls
purple, edged with fawn ............................... 25 2.50

Ossian: Standards light yellow, falls light claret,
a rather saucy combination ........................... 25 2.50

Pallida Dalmatica: Big flowers of lovely silvery
lavender. Tall. One of the very best for
masing .................................................. 35 3.50

Parisiana: Standards lavender pink, falls cream,
stippled and suffused with lavender ............... 75 7.50

Perfection: Standards old blue; falls deep vel-
vety purple. Particularly fine form .................. 35 3.00

Princess Victoria Louise: Standards are prim-
rose, falls plum, margined primrose ................. 30 3.00

Prosper Laugier: A fine bronze, with large
flowers ................................................... 50 5.00

*Prospero: Blooms of the largest size combine
standards of lavender blue with falls of a
rich purple, and an orange beard to emphasize
both colors ............................................. 2.00

Pseudo Acoris: Foliage two feet and more in
length, almost tropical in its luxuriance. Small
flowers of brilliant yellow. Succeeds in
either marshy or well drained situation. Su-
perior as a background in the border ................ 25 2.50

Pumilla: Purple. The dwarfest and earliest of
all irises. This sort has rich purple flowers. 6
inches is the height, making the plants partic-
ularly fine for rock gardens or bordering taller
irises .................................................. 25 2.50

Quaker Lady: A demure combination of smoky
lavender and mother of pearl tints ................... 50 5.00

Queen Caterina: A truly patrician flower of palest
lavender, overlaid with a marked sheen. Ex-
quisite ................................................... 2.00

Queen of May: If you are fond of pink effects,
try a mass planting of this beautiful sort. With
Iberis Toreana (page 17). It is something
to rave over ............................................. 25 2.00

Rhodo Dams: Standards purest white, falls deep
violet bordered with white .......................... 35 3.50

Sherwin Wright: Golden yellow throughout, no
markings. Not large, but decidedly good ........... 25 2.50

*Souvenir de Mme. Gaudichaux: A uniform shade
of dark blue-purple, lit at the center by the
vivid gold of its beard. Many consider this
the best iris ever introduced .......................... 2.50

Standard Bearer: Rich claret shade, tall and
free blooming. A fine accent for the garden,
particularly when a half dozen or more plants
are employed .......................................... 1.00 10.00

*Sunset: Real old gold, none other like it. A
suggestion of blue in the falls intensifies the
old gold effect. Heavy textured blooms on
stems of medium height .................................. 1.50

White Knight: Standards and falls both of pure
milk white ............................................. 75 7.50

Wyndham: Standards delicate lavender pink, falls
deeper .................................................. 40 4.00

Zua: Lavender, the flowers most distinctive on
account of their crinkled texture, like crepe
Early .................................................. 2.00
DUTCH, SPANISH and ENGLISH IRISES

These are bulbs, dormant only in August and September, at which time they should be planted, preferably in clumps of perhaps a dozen of a sort. I have four kinds of the Dutch, the same number of English, and in the Spanish a deep, rich blue with contrasting yellow lip. The Dutch and English irises are $1.50 the dozen, the Spanish $1.00. A dozen of each sort, nine dozen in all, will be sent for $10.50. The colors range from white through varying lavenders to deep blue. They follow the Germanica type in blooming season, extending it a full month, and then come

THE JAPANESE IRISES

These unfold their regal flowers, often 8 and 10 inches across, in July. They range through delicate lavenders to richest purple, some are pure white marked with gold, others are daintily veined with contrasting color. They must have good drainage and sun.

I offer only in high-class mixture as yet (with the one exception noted below), some of the flowers with three petals, others with six, but all attractive in the extreme.................. .30 3.00

Azure Blue: Extra large flower of palest blue, deepening at edge of petals. Strong plants... .75 7.50

DAHLIAS

No fall flower can successfully compete with the dahlia for popularity. Don't plant too early, and don't give them too rich ground, else foliage will be more in evidence than flowers. Mid-May is about the right time to plant in the Pacific Northwest, for finest fall bloom.

Here are just a few of a real merit, at most modest price:

ROCK GARDENING

Are you inclined to be a bit bored at prospect of the same garden and the same plants year after year? Have you a terrace on your grounds where the mower seems to weigh a ton when you are shearing the lawn? Would you like to have something decidedly different from the gardens of most of your friends? What you need is a rock garden, to intensify your interest and yield new adventures.

"Rock gardening is the coming rage in America," says Louise Beebe Wilder, the widely known writer of gardening books and magazine articles. Certainly it is an inexhaustible field of interest. Here a mass of gay pink or soft blue, there a drift of snowy white or the glow of yellow bloom—steps carpeted with tiny creepers bearing equally diminutive flowers, walls masked by trailing curtains of gray or green foliage—wouldn't you take lots of pleasure in achieving a picture like this on your own grounds?

SOMETHING PERHAPS YOU DON'T KNOW

If for some good reason a rock garden is impracticable, you can still enjoy practically all the rock plants in your own borders and beds without the companionship of a single rock, if the soil is well drained, for the plants I offer are not the fastidious and hard-to-grow kinds, but those easily pleased and vigorous.

FOR CONVENIENCE

And because it is hard to arbitrarily divide rock plants and general garden perennials, all are included under the listing of perennials.

An (R) will designate those especially suited to the rock garden. Special lists will be found on page 27.

PERENNIALS

A garden of perennials grows more beautiful year by year, and they present such an infinite variety in flower and plant that every taste can be suited. I'm going to urge, if your space permits, that several plants of a sort be used in your garden (except the larger plants, where perhaps a single one may be very effective) rather than just one plant each of many kinds. I think you'll be better pleased with the result.

And please order and plant early if possible—early planting is one of the greatest factors of success.

Note—Plants marked with an (R) are those especially suited to the rock garden.

</table>
ALSTROMERIA AUREANTIACA: “Peruvian Lily.” Large lily-like flowers of orange, streaked with red, and borne in umbels. Requires slight protection in cold climates. A fine cut flower. 3 feet. .35 3.50

ANCHUSA ITALICA-DROPMORE: Deep blue flowers like a giant forget-me-not, borne abundantly in late spring. A mass of this is especially fine in the garden. 4 feet .35 3.50

ANCHUSA-DWARF: Flowers are a medium shade of brilliant blue. 15 inches .25 2.50

ANDROSACE LANUGINOSA: (R) A trailing plant bearing a profusion of creamy flowers with deep pink eye, and blooming all summer. Gray foliage. From the Himalayan Mountains .50 5.00

ANEMONE
Anemone Huphensis: (R) NEW. Plants only 15 inches high, the flowers of delicate pink but half the size of the well-known Japanese anemones. An introduction from China .40 4.00

Anemone Japonica: “Queen Charlotte.” Well named, as this plant is really a queen among fall perennials, and magnificent en masse. Lavender-pink, semi-double flowers from August until frost. Half shade is a requirement for finest display .35 3.50

Much larger plants .50 5.00

Anemone Japonica Rubra: Rose red. 2 feet .35 3.50

Anemone Japonica “Whirlwind”: Pure white flowers, at same prices as Queen Charlotte.

ARABIS ALPINA: (R) Forms a complete carpet of pleasing dull green foliage, covered in early spring with snow-white flowers .25 2.00

ARABIS ALPINA FLORA PLENA: (R) The double form. Just as free flowering as the single, but more desirable in many locations, as it does not increase so fast .30 3.00

ARENARIA BALEARICA: (R) Of the most intense green, this plant soon covers a shady, moist spot most pleasingly. Tiny white flowers .35 3.00

ARENARIA CAESPITOSA: (R) Might be called an emerald green moss. Likes a sunny site. Small white flowers .35 3.00

ARENARIA MONTANA: (R) A plant of slender, graceful growth, its dark green stems smothered in white flowers in late spring. Most desirable in every way .35 3.50

ARMERIA VULGARIS: (R) Grasslike foliage with pretty rose flowers on 9-inch stems. Fine for edging or rockery .20 2.00

ARTEMISIA
Artemisia Abrotanum: Fine cut foliage, aromatic when crushed. 2 feet .25 2.50

Artemisia Canadensis: (R) “Silver Mist” aptly describes this thoroughly unusual and delightful plant. Cut it back several times a season if you want it particularly fine .56 5.00

Artemisia Frigida: Another silver-foliaged plant that is extra fine .30 3.00

**ASTERS—Perennial**

Do not confuse these with the annual bedding asters. The perennials are robust growers, especially good for planting at the back of borders or at the edge of a bit of woodland. Their masses of flowers in the autumn give one of the finest effects imaginable.

</table>
Sub-Coerulescens: (R) Violet blue flowers in June and July, 12-inch stems. Choice cutting material $0.25 $2.50

Special—One each of the 14 asters listed above, amounting regularly to $4.70 for $4.00.

ASCLEPIAS TUBEROsa: Flat heads of brilliant orange flowers in midsummer. 18 inches ........ $0.30 $3.00

AUBRETTIA: (R) "Rock Cress." New large-flowered hybrids. The range of color includes lavender, purple, mauve, rose and crimson. Plant with your double Arabis and pale yellow alys-sum, or let the aubretia fall over the rocks in colorful curtains. Trailing .................. $0.35 $3.50

BELLIS PERENNIS MONSTROSA: (R) A giant type of the early flowering English daisy, in cheerful mixture of white and pink, the latter predominating. Six inches. Often blooms in February ........................................... $0.20 $2.00

BELLIS PERENNIS MONTROSA "Grand Fus-ilier": (R) A much-advertised European novelty, with flowers of amazing size ................ $0.30 $3.00

CALAMINTHA ALPINA: (R) All summer long the small violet flowers adorn the slender shoots of this easily grown plant. 8 inches .... $0.25 $2.50

CAMPANULAS (Bell Flower)

Campanula Carpatica Grandiflora: (R) Free-flowering, robust and good looking. The variety offered is a soft blue. Deserves generous planting ........................................ $0.25 $2.50

Campanula Carpatica "Isabel": (R) Extremely large and wide-open flowers of light blue ... $0.40 $4.00

Campanula Carpatica "Riverslea Beauty": (R) Much larger than the type and these particular plants bear white flowers ................ $0.35 $3.50

Campanula Glomerata: (R) Shakes its deep purple bells from stems a foot tall. Blooms in June .................................................. $0.25 $2.50

Campanula Latifolia: The flowers vary from pale lavender to violet, and hang like bells from a central stalk 18 inches or more in height. Long blooming period. Increase fast ................ $0.30 $3.00

Campanula Persicifolia "White Peach Bells": In even a modest mass, the purity and grace of these flowers are irresistible. 2 feet .......... $0.25 $2.50

Campanula Persicifolia "Blue Peach Bells": A fitting companion to the white variety .................................................. $0.25 $2.50

Campanula Persicifolia Moerheimi "Double Blue Peach Bells": A charming novelty. Soft blue .......... $0.35 $3.50

Campanula Pyramidalis "Blue Chimney Bell Flower": An impressive flower stalk 4 to 6 feet tall, carries great numbers of the handsome blue blossoms. Small plants .......... $0.25 $2.50

Very large .......... $0.50 $5.00

Campanula Rotundifolia "Scotch Hare Bells": (R) Small blue bells on slender stems have long made this plant a favorite. Blooms early and late .......... $0.35 $3.50

Campanula Sarmatica: (R) A rare form. It is a vigorous grower. 1 foot. Blue .......... $0.50 $5.00
CANTERBURY BELLS: Our old friends, universally admired. Biennials. In blue or pink... .20 1.75

CARNATION: Hardy Giant Marguerite type. Vigorous growers, producing an abundance of finely perfumed flowers throughout the season. Mixed colors... .30 2.50

CENTAUREA DEALBATA: Beautiful long-stemmed flowers of lavender rose, very lasting cut. Little known but attractive in foliage and flower. Only large specimen plants offered. 4 feet... .75 7.50

CENTAUREA MACROCEPHALA: A very striking plant with bloom like a huge yellow thistle. The brown buds are very ornamental. 3 feet... 

CERATOSTIGMA PLUMBAGINOIDES: (R) (See Plumbago Larpentae).

CHELONE BARBATA "Shell Flower": Graceful racemes of small pink or red flowers, springing from a tuft of glossy foliage. 3 feet... .25 2.50

CHEIRANTHUS ALLIONNI "The Fairy Wall Flower": (R) The flowers of brilliant orange are delightfully fragrant, and best of all, they are borne in profusion all summer. Equally indispensable in the perennial garden and rockery. 1 foot. Plant with Viola "Jersey Gem" if you want a brilliantly contrasting ribbon to mark your drive or path, and excite the admiration of all who see it. $12 the 100... .25 2.00

CHYSANTHEMUMS

These are the last flowers to give a real display in the garden and are doubly acceptable on that account. We all know their possibilities in bowl or basket, for the house.

Arctic: Pure white, loosely formed.
Autumn Glow: The fall tints so much admired.
Golden Climax: Small brilliant yellow pompon.
Hilda Channing: Charming bronze pompon.
Homestead: Extra hardy, old fashioned pink.
Jane: Handsome reddish bronze of good size.
Julia Legreve: Dull Indian red pompon.
Magenta Queen: Free flowering and handsome.
Normandy: Large light pink, extra early. Finest of all.
Iva: Bronze, pompon type.

UNNAMED:
Soft pink, especially pleasing and graceful.

All sorts listed above are 25 cents each; a dozen of a single sort $2.50.

MIXED CHRYSANTHEMUMS: Through a misunderstanding in planting instructions, a number of plants were put in without labels. They include all the above and a few other sorts. They will be sold at 6 for $1.00, 25 for $3.00.

Chrysanthemum Maximum Arcticum: (R) The white flowers, like small Shasta daisies, appear in late fall. The plant grows very low and compact. 1 foot... .25 2.50
Chrysanthemum Maximum "Saunder's Marguerite": Semi-double and double types, exceptionally fine for baskets and florists' use.

**Dianthus Deltoides** (R): Tiny flowers of deep rose color completely cover the plant in spring. Try a dozen in border or rock garden... .25 2.50

**Dianthus Kamtschaticus** (R): A trailing rock pink of recent introduction, most remarkable for the freedom with which it produces its large deep rose blossoms. With me it bloomed for five months. Only small plants... .35 3.50

**Dianthus Plumarius**: Just the well-known, old-fashioned garden pinks, saturating the spring air with their fragrance and casting enchantment over the garden in general. Pink or white, as you prefer. $15.00 the 100... .25 2.50

14
Dianthus—Selected Rock Hybrids: (R) Resembling Dianthus Deltoides, but with considerable variation in foliage and flower. Very low growing, with dainty little blossoms

Each Dozen

R. F. D. 1, BORING, OREGON

DICENTRA SPECTABILIS: "Bleeding Heart." Well-known favorites with drooping racemes of pink flowers suggesting hearts. I offer large 2-year plants. 2 feet

1.00 10.00

DORONICUM: Flowers like a huge yellow daisy, 3 inches across, on 15-inch stems. One of the earliest glints of sunshine in the garden

.25 .250

ERIGERON ELIATOR: The pretty lavender flowers are produced all summer. 15 inches. This variety is new and very desirable

35 3.50

ERYNGIUM OLIVERANUM: From a cluster of glossy leaves rises a branched stem some four feet in height. The thistle-like flowers, which are very numerous, assume an amethyst sheen

40 4.00

Specimen clumps

1.50

ERYNGIUM ZABELI: A much bolder type than the preceding, forming specimen clumps 3 feet in height. Small plants

.40 4.00

Specimen clumps

2.00

EULALIA JAPONICA GRACILLIMAS: An ornamental grass that is the climax of grace. Forms handsome clumps. Dark green

.25 .250

EULALIA JAPONICA VARIEGATA: A heavier leaf than the preceding, and variegated with creamy stripes. 5 feet

.25 .250

EUOPHYLLUM CAESPITOSUM: (R) "Oregon Sunshine." Of course the flowers are a rich yellow. Foliage of soft gray-green. Likes full sun. 8 inches. Superior for the rockery, but effective anywhere

.40 4.00

EUPATORIUM AGERATOIDES: Small white flowers arranged in rather large flat heads, appearing in August and September. 2 feet. Useful to arrange with other flowers

.25 .250

GAILLARDIA "CRIMSON GLOW": Rich crimson predominates in this. 2 feet. Constant bloomer

.35 3.50

GAILLARDIA: English Exhibition Strain. Wide range of striking colors; large flowers

.30 3.00

GALEGA OFFICINALIS: A profusion of lavender flowers and fern-like foliage make this worth-while in any garden. Yes, it is a good cut flower, too. 3 feet. Large plants

.30 3.00

GEUM "LADY STRATHEDEN": Rich orange flowers, a decided novelty in this popular plant. Double, free flowering

.35 3.50

IF YOU ARE IN DOUBT AS TO SELECTION OF PERENNIALS

I shall be very glad to make selections for you, to any amount desired, but will ask that you send information as to sun or shade, and whether particularly desired for garden effect or cutting. I’ll do my best to please you.
GEUM "MRS. BRADSHAW": Brilliant orange scarlet flowers resembling small roses, cover the plant all summer. You'll be delighted with a liberal planting of these.  

Each Dozen  

.25 .25  

GYPSOPHILA ACUTIFOLIA: "Baby Breath."
Tiny white flowers, fragrant and earlier than Paniculata  

.25 .25  

GYPSOPHILA PANICULATA: Dainty white flowers in misty masses. Adds grace and lightness to any flower arrangement. 3 feet. Large plants  

.35 .35  

GYPSOPHILA PANICULATA—DOUBLE: Each floweret a perfect little white rose. Will dry for winter use. Large plants  

1.00 10.00  

HARPALIUM RIGIDUM: Long, golden petals around a brown center, like a refined and glorified sunflower. 6 to 8 feet. Try it against lattice or garage  

.25 .25  

THE HELENIUMS  
These are magnificent for generous use in the early Autumn garden. All grow about 4 feet tall and are excellent to cut. Bloom well the first year.  

Each Dozen  

Autumn Queen: Old gold, reverse of petals copper  

.25 .25  

Autumnal Rubrum: A novelty. Almost ox-blood red  

.40 .40  

Hoopesi: This is an earlier blooming kind, with flowers from May until late summer. Clear golden yellow  

.35 .35  

Riverton Beauty: Clear lemon yellow  

.25 .25  

Riverton Gem: Rich copper bronze  

.25 .25  

Special: The collection of five Helinums for $1.30. Six plants of each for $6.75.  

HELIANTHUS ANGUSTIFOLIUS: Of particularly graceful habit, and latest of all its family to bloom. Slender brilliant yellow petals surround a black disc. 6 ft.  

.35 .30  

HELIANTHUS "SOLEIL D'OR": Like Golden Glow, but superior in habit and especially suitable for informal hedging. With tall, perennial asters, the purple and gold is a good contrast  

.25 .25  

HELIANTHEMUM "Rock Rose": (R) The variety I offer bears single flowers of a clear lemon yellow, and is very handsome  

.25 .25  

HEMEROCALLIS "GOLD DUST": These are also known as day lilies. Deep yellow, fragrant flowers. 15 inches  

.25 .25  

HEUCHERA SANGUINEA "CORAL BELLS": (R) Delicate red flowers on 12-inch stems. Nothing daintier in the garden. Large 2-year plants  

.35 .35  

HUTCHINSONIA ALPINA: (R) Shining green leaves which form a dark mat studded with little white blooms. Excellent as a cover for choice spring bulbs. 3 inches  

.35 .30  

HYPERICUM CALYCINUM: (R) A half shrubby little plant about 8 inches in height, bearing golden yellow flowers in spring. Evergreen in this climate  

.35 .35  

HYPERICUM MOSERIANUM: Taller than the preceding variety, being sometimes 18 inches in height. Spreads rapidly  

.30 .30  

16
HYPERICUM REPENS: (R) A multitude of slender stems, clothed with pretty leaves and terminating in golden yellow flowers, make this one of the most satisfactory rock garden subjects. Evergreen. 6 inches............. .35 3.50

IBERIS TOREANA: (R) An improved perennial candytuft, completely smothered with rose lavender flowers about Decoration Day. Evergreen. 9 inches. Will do best if planted early .............................................. .35 3.50

JAPANESE ANEMONE: (See ‘Anemones’).

JAPANESE IRISSE: See page 8.

LAVENDER: What can be more delightful than this occupant of old English gardens, with its sweetly scented flower spikes and association of sentiment? Did you know it makes a fine hedge? 3 feet. Strong plants .................. .40 4.00 Specimens (to nearby points only) ........................ 1.25

LEONTOPODIUM ALPINUM: (R) The famed Edelweis of the Alps. A tuft of rather wooly leaves, the flowers white. Not at all difficult to grow in well drained, sunny situation ....... .50 5.00

LILIES

These are properly planted in the fall. I offer the following sorts and suggest placing your order in the spring, for shipment at just the proper time. Planting a half-dozen or more bulbs in a clump gives best display.

<table>
<thead>
<tr>
<th>LILY VARIETY</th>
<th>DESCRIPTION</th>

My plants make an especial appeal to those who are interested in the best for their gardens, realizing that an inferior plant occupies just as much space, requires as much or more care and is never thoroughly satisfactory.

LINUM PERENNIE: "The Blue Sky Flower." Dainty foliage and dainty azure flowers throughout the summer give this plant more than ordinary interest. .25 2.50

LINARIA DALMATICA "The Nymph": NEW. A tremendous advance over the older sort. Like a huge yellow snapdragon. Very free flowering. Inclined to spread when thoroughly established .......... .40 4.00

LYCHNIS CHALCEDONICA: Vivid orange scarlet flowers in heads resembling the Sweet William, attract attention in any garden ...... .25 2.50
LYCHNIS VISCARIA FLORA PLENA: (R)
This plant will be noticed in any rock garden, no matter how choice the other occupants may be. Clear cerise flowers on 8-inch stems form a perfect mound of arresting color. The plant itself is a low tuft of grassy leaves. Stock limited ................................................. .40 4.00

MONARDA DIDYMA: ‘Bergamot’ is the popular name of this, and the variety is Cambridge Scarlet. A very showy plant with crimson flowers of fantastic form. Use it as an informal hedge between you and your neighbor .25 2.50

MYOSOTIS—“Forget-me-nots”
Myosotis Ameliorata Compacta Indigo: (R) Very rich deep color. A sort seldom seen.............. .30 3.00
Myosotis Rose Abalisque: (R) A lovely pink........... .30 3.00
Myosotis Royal Blue: (R) Clear blue, floriferous in the extreme. Combine with Alyssum Saxatile .25 2.25

DO NOT OVERLOOK SPECIAL COLLECTIONS OF
Asters—page 12.
Chrysanthemums—page 14.
Gladioli—32.
Heleniums—page 16.
Irices—inside front cover.

NEPETA MUSSINI: (R) Tumbling masses of gray-green foliage as a foil for the clouds of lavender flowers. Nothing more satisfactory for liberal use in the rock garden or border. 1 foot .......................................................... .25 2.25

ONOPORDON BRACTEATUM: A huge silver thistle from Central Asia, succeeding best in a dry, sunny spot, where it reaches a height of 8 to 10 feet. Use it as a background for delphiniums if you want something impressive. It’s a biennial. Small plants only...................... .25 2.50

PANSIES: Yellow Himalayan Phantasy. Introduced as a strain that will bloom even in winter when not actually frozen. From Europe. Fine plants................................................. 1.00

PENSTEMON
Penstemon Glaber: (R) A slender plant usually not exceeding a foot in height, with blue flowers shading into violet. Excellent.................. .30 3.00
Penstemon Menziesii: (R) A shrubby sort about 8 inches in height, native to the slopes of Mt. Hood. Handsome, glossy foliage, and attractive flowers of rose or rosy purple. Superior for the rock garden ................................. .75 7.50
Penstemon Ovatus Douglassi: (R) The plant itself is a low cluster of burnished green leaves; the flowers deep, rich blue, changing to mauve as they age. They are borne in profusion on stems varying from a foot high in their mountain habitat, to perhaps three feet in exceptionally rich garden soil. An exquisite subject for either rock garden or perennial border. Give sunny exposure. Fine blooming size plants.............. .50 5.00
Extra large plants................................. .75 7.50
PEONIES

Every year I become a stronger ‘‘peony fan,’’ with fresh admiration and enthusiasm for these big balls of fragrance and beauty. A fine peony is really an investment, growing handsomer each year of its establishment, absolutely hardy and permanent. Peonies are properly planted only in the fall, but if you will include them in your spring order the plants will be sent at just the right time, with special planting instructions. No, they are not at all hard to grow, but there is just one right way to plant them.

The quotations are for strong divisions, none with less than three sprouts, many with six or more. Double flowers unless particularly specified as single.

PEONIES—DOUBLE SORTS

<table>
<thead>
<tr>
<th>Name</th>

</table>

PEONIES—SINGLE, SEMI-DOUBLE AND JAPANESE TYPES

These lend themselves to most artistic cut-flower arrangements, and are equally admired on the plants.

Albiflora, the Bride: A single row of broad white petals encircles a mass of golden stamens. A vigorous grower and a free bloomer | 1.75 |

Ama No Sode: Bright rose pink, merging into lighter tone at margin. A very large flower. One of the very finest Japanese peonies | 15.00 |
Gypsy (Japanese): Dark Tyrian rose. A large, loose, artistic flower. Mid-season.............. 3.00
Goldmine: A beautiful deep rose Japanese peony, with center of rich gold.......................... 5.00
Marie Jacquin: A lovely semi-double flower much resembling a white water lily. Borne in clusters 1.50
Mikado: Crimson petals surround a mound of golden petaloids. Very large. Japanese, of course. 3.00
Pride of Langport: An exquisite single pink, brilliant yet soft in color ......................... 7.50
Yose: An attractive white flower, sometimes tinged pink. Japanese.................................. 2.00
Fuyajo (Japan): Dark maroon with velvety sheen. Two rows of guard petals. Conspicuous petaloids striped crimson and white.......................... 18.00

PERUVIAN LILY: (See Alstroemeria).

PHLOX DECUSCATA (Hardy Phloxes)

Phloxes were always an important feature of old-fashioned gardens, and they're equally indispensable now. No other perennial is quite so valuable for mid-summer flower masses, and the plants thrive equally in full sun or half shade. They like rich soil. If possible, plant at least a half dozen of one sort, for massing is essential to get the finest effect. Most of them are pleasingly fragrant. The plants I send out are not "toothpicks" just taken from the greenhouse, but vigorous field plants that will bloom for you this summer, and they are worth the price asked.

Each Dozen

Europe: Very tall white with red eye................... .35  3.50
Mrs. Jenkins: Late blooming, fine white............... .35  3.50
Mrs. W. E. Fryer: Pure white, extra large truss of flowers.................................................. .35  3.50
Miss Lingard: Extra early white, often blooming several times in a season............................ .35  3.50
Orange Scarlet: A dozen of these would arrest attention in any border. The color is dazzling. .35  3.50
Pantheon: Deep true pink. Immense flowers and truss. Best of all for garden effect.................. .35  3.50

MIXED PHLOXES: Embracing many shades and all formerly named varieties, are offered at 6 for $1.00; 25 for $3.00; 50 for $5.00.

Phlox Amoena: (R) Only 4 in. high, suited to rockery or the garden. Bright pink flowers entirely cover the plant in late spring......................... .25  2.50
Phlox Sublata “Moss Pink”: (R) A trailing plant which soon forms a mat of bright green, changing to a solid rug of color when in flower. Lilac—especially good............................. .25  2.50
Pink .................................................................. .25  2.50

PHYSALIS FRANCHETI “Chinese Lantern Plant”: The seeds are produced in brilliant orange capsules about the size of an egg. These dry for effective winter decoration. 18 inches .25  2.50

PHYSOSTEGIA: Like a huge heather. Blooms in midsummer and is valuable for cutting. 3 feet. There are two sorts:

Soft lavender pink........................................... .25  2.50
White .................................................................. .25  2.50

PHYSOSTEGIA VIRGINICA “Vivid”: A month later than the ordinary pink, and deeper color .35  3.50
R. F. D. 1, BORING, OREGON

Each Dozen

**PLATYCODON GRANDIFLORA:** Called the "Chinese Balloon Flower" because the buds look like balloons. Handsome bell-shaped flowers in blue and white, appearing all summer. 18 inches. 2-year plant

.35 3.50

**PLATYCODON MARIESII:** Like preceding, but more dwarf

.35 3.50

**PLUMBAGO LARPENTAE** (Syn Ceratostigma Plumbaginoides): (R) Said to have been discovered on the walls of Pekin, this Chinese plant is invaluable in the rock garden, as it introduces a note of intense blue in the fall, when that color is scarce indeed

.35 3.00

**POLEMONIUM REPTANS:** (R) Fern-shaped leaves, and quantities of delicate blue bells in May. 8 inches. Use it as an edging or in the rock garden

.35 3.50

**POLEMONIUM REPTANS:** (R) Fern-shaped leaves, and quantities of delicate blue bells in May. 8 inches. Use it as an edging or in the rock garden

.35 3.50

**POLYGONUM AUBERTI:** "Silver Lace Vine." Great sprays of foamy white flowers hang from this vine during late summer and fall. It grows vigorously and will attain a height of 25 feet or more. It is hardy. Big plants, 2 years old

1.00

**PAPYRUS (Poppies)**

**Poppy Iceland:** (R) The improved "Sunbeam Strain." Twice the size of the ordinary Iceland poppy, on stems twice the height, and with many delicate gradations of color hitherto unknown in these beautiful flowers. Bloom all summer, cut splendidly. Colors embrace lemon, orange, pale rose, orange-scarlet, white, etc

.25 2.50

**Poppy Pink Oriental:** The finest of this color that it has been my good fortune to see. Lasts well in water if cut just as expanding

.40 4.00

**Poppy Scarlet Oriental:** Immense flowers of vivid scarlet. They are often 8 to 10 inches across. Set in early spring or late August

.30 3.00

**Poppy Rupifragum:** (R) A bit of orange silk wafted to American gardens from the Pyrenees Mountains in Spain. 1 foot. Likes hot, dry situation. Always in bloom if not allowed to seed

.35 3.00

**POTENTILLAS**

** Aurea:** (R) A rock plant with pretty yellow flowers. 6 inches

.35 3.50

**Nepalensis:** (R) Robust sort growing 18 inches tall, flowers cerise and remarkable for being produced all summer

.35 3.00

**Rupestris:** (R) Another fine rock subject. White, Very choice. 1 ft

.40 4.00

**HARDY PRIMULAS (Primroses)**

These prefer half-shaded situations.

Each Dozen

**English:** In varying shades of yellow, rich red, maroon, etc., many showing distinct eyes of contrasting color. Nothing could be prettier in early spring than a generous border of these flowers

.25 2.50

<td>(R) Broad leaved and evergreen, umbels of soft pink flowers in very early spring. Half shade. Specimen plants 2 feet across, nearby points only.</td>
<td>.30 3.00 2.50</td>
</tr>
</tbody>
</table>
Each Dozen

Mossy Saxifrage: (R) Pink. Each plant composed of a group of bright green rosettes, very ornamental. Pink flowers. 6 inches. Half shade .35 3.50

Saxifrage Umbrosa: (R) Small tufts of fleshy green leaves, much branched red stems bearing tiny pink blossoms. Requires shade .20 2.00

SEDUMS

These plants have fleshy leaves, are mostly evergreens, and thrive in well-drained, sunny places, making effective subjects for the rock garden, and the more robust growers are fine ground covers.

Each Dozen

Acre ‘Golden Moss’: (R) Bright green foliage, and equally brilliant yellow flowers. Creeping .25 2.50

Album: (R) Vividly green, at blooming time sprinkled with white stars. Will crowd out choicer small plants, so place accordingly. 3 inches tall .25 2.50

Hispanicum: (R) One of the loveliest, with its bluish-gray mats of foliage. Creamy blossoms .25 2.50

Ramschaticum: (R) 4 or 5 inch stems clothed with cheerful green foliage, are topped with orange flowers .35 3.50

Sarmentosum: (R) A light green sort from China. Creeping. Pale yellow flowers .25 2.50

Spurium: (R) Green foliage, pink flowers. 6 inches .25 2.50

Spurium Coccineum: (R) Crimson flowers in July and August. Foliage assumes reddish tones in autumn .25 2.50

Stolonifera: (R) Flower lavender-pink, leaves noticeably flat. 6 inches (Other sorts, including some quite rare, will be offered in the fall) .25 2.50

SHASTA DAISY: Single white flowers, 4 inches in diameter, with yellow centers. I offer two forms:

No. 1 Many branches, forming a mound of white bloom, ideal for the garden .25 2.50

No. 2 Each flower boasts its own individual stem, perhaps 18 inches long. Superior for cutting .25 2.50

SILENE SHAFTA: (R) Lovely subject for the rockery or border. The habit is trailing, the flowers a soft purplish-rose, and they come in late summer .25 2.00

SILENE ORIENTALIS COMPACTA: (R) Glaucous leaves, deep rose flowers in small heads. 8 inches. Dainty indeed, but said to be a biennial .25 1.50

SPIREA FILIPENDULA: (R) Finely cut foliage with clusters of pretty, creamy flowers on 15-inch stems .35 3.50

A taller sort, 3 feet, same price.

STACHYS CILIATA: (R) Bright green leaves variegated with white. The plant soon forms a nice clump and is particularly adapted to shady places. There are two colors of the flowers, and they are available separately; the lavender is really the more attractive. 6 inches.

Lavender Stachys .25 2.00
White Stachys .25 2.00
STACHYS LANATA "LAMB'S EARS": (R) The chief charm of this plant is its velvety foliage of pale gray-green. Especially good with lavender or mauve flowers.................. .25 2.50

STELLARIA: (R) Dark green rather loose-growing tufts, sprinkled with tiny white flowers. Spreads fast, and likes half shade......................... .25 2.50

STOKESIA CYANEA: Large aster-like flowers of lavender-blue, generously produced................ .25 2.50

SWEET WILLIAMS: (See Dianthus Barbatus). SYNTHYRIS ROTUNDA: (R) A dainty midget for shaded portions of the rock garden, or naturalizing in woods. Lavender flowers appear in very early spring. 3 inches. At its best in colonies of 10 to 50 plants.................. .35 3.50

THALICTRUM AQUILEGIFOLIUM: Feathery lavender flowers in June and July. Likes half shade. 5 feet. Fall delivery.................. .30 3.00

THALICTRUM DIPTEROCARPUM: Small lavender flowers arranged in a perfect shower on very tall and much branched stems. A well-grown plant will attain a height of 6 feet. A sensation wherever shown.................. .50 5.00

THYME

Deliciously aromatic foliage is a feature of most of these. But they have good looks to recommend them besides. A sunny spot for them, please.

Each Dozen

Albus: (R) Creeping stems and tiny foliage, white flowers .................. .25 2.50
Azoricus: (R) Rare creeping sort.................. .35 3.50

Citriodorus: (R) Delicious lemon scent. 8 inches .25 2.50
Citriodorus Argentea: (R) Silver leaved. 8 inches .25 2.50
Citriodorus Aurea: (R) Golden leaved. 8 inches .25 2.50

Lanuginosus: (R) Woolly leaved thyme, especially fine to fall over a dry wall. Trailing.................. .25 2.50

Serphyllum: (R) Trailing, with pinkish-lavender flowers .................. .25 2.50
Serphyllum Alba: (R) Same, with white flowers .25 2.50
Serphyllum Coccineus: (R) With crimson-purple flowers .................. .25 2.50

TRITOMA—EXPRESS HYBRIDS: Luxuriant clumps of rush-like foliage of tropical appearance. Majestic spikes of orange and yellow flowers. 4 and 5 feet.................. .35 3.50

TRITOMA "RUFA": Pale orange yellow, blooming from July until frost. 15 inches.................. .35 3.50

TUNICA SAXIFRAGA: (R) A splendid filler and softener for the rock garden. The low clump of grassy foliage is quite obscured by the cloud of pale pink flowers resembling a miniature "baby-breath." Blooms all summer. Use generously.................. .25 2.50
VERONICAS

Incana: (R) Silvery foliage, deep blue flowers. 8 inches ................................................. .30 2.50

Longifolia Subsessilis: Two foot spikes of bright blue flowers from summer until fall. Good cutting material, and fine in the garden as well .25 2.50

Prenja: (R) This is seldom catalogued in America, but is a charming plant for rockery or perennial border. 9 inches. Soft blue is the color. Blooms with the irises and is a fine foreground for them. .35 3.50

Repens: (R) Only an inch tall, starred with azure blue flowers. .25 2.50

Rupestris: (R) A gem, with evergreen trailing foliage, and charming blue flowers in the utmost profusion .25 2.50

Rupestris Alba: (R) White flowers on bolder spikes, often 8 inches tall. .30 3.00

Spicata: Blue flowers of varying shades. 12 to 20 inches ........................................... .25 2.50

Spicata Rosea: (R) Spikes of rose flowers. 1 foot ....................................................... .25 2.50

VERBASCUM PANNOSUM: The gray green leaves are of heavy, rich texture like velvet and very large and imposing. Bright yellow flowers are borne on a 6-foot stalk. For back of the border or a bold clump on the lawn it would be just the thing. .30 3.00

VIOLA GRACILIS—"G. WERMIG": (R) Deep purple, in form and color a close approach to the true violet. The plant soon forms a broad mat and blooms prodigally for six months of the year if the withered flowers are sheared. Unequalled for rich bedding effects, bordering a walk or drive. .25 2.00

VIOLA—"JERSEY GEM": (R) NEW. This novelty has created a sensation throughout this country and "across the Pond." In shape and color the flower resembles an immense violet, but to enhance its beauty the petals are noticeably ruffled or fluted. The flowers are borne from very early summer until very late fall. In cool weather, the stems are 6 inches long. It is supreme as a bedding or bordering plant. Must have full sun. Try it with Cheiranthus Allioni. $25.00 the hundred ........................................ .35 3.50

VIOLA—SCOTCH BEDDING: These are like a small pansy, but exceedingly floriferous and much used for bedding. From imported seed. Bright yellow .................................................. 1.00 7.00

VIOLET—CALIFORNIA: Strong growing, with rich green leaves and large single violets of delicious scent.................................................. .25 2.50

ZAUSCHNERIA CALIFORNICA: (R) Vivid scarlet flowers make this trailing plant wonderfully attractive in late summer and fall. Sometimes called "The trailing fuschia." Succeeds well in hot, rather dry place. .50 5.00
W. L. CRISSEY ALPINE GARDENS

SHRUBS

BUDDLEIA MAGNIFICA: "Butterfly Bush." Raceemes of delightfully fragrant purple flowers in late summer, very attractive to the butterflies. Should be cut back within three feet of the ground in early spring. Flowers first season. Large plants.................. .50  5.00

COTONEASTER MICROPHYLLA: One of the best of low-growing, evergreen shrubs. Horizontal branches are filled with bright red berries in winter. Strong plants with lots of root 1.00 10.00

COTONEASTER SIMONI: Erect growing, reaching a height of 5 or 6 feet. Deep green foliage, the branches plentifully sprinkled with red berries for fall and winter effect. Bushy plants .................. .50  5.00

GENISTA ANDREANA: An especially fine broom, with flowers of crimson and gold. 8 feet. Fine plants, to nearby points only... 1.00

SPIREA—VAN HOUTTE: Gracefully drooping branches covered with clusters of small white flowers to their tips. Six feet tall. Sometimes called "Bridal Wreath".... .50c to $1.00

LILAC: Old-fashioned purple, of delicious scent and tender memories. Three-year plants, at special price et.................. .50  5.00 25 or more at great reduction.

LILAC "PRESIDENT GREVY": One of the very choicest French sorts. Double blue. Strong bushes. 3 feet tall.................. 2.50

ROSA HUGONIS: From Northern China. The habit is drooping, each branch clothed its entire length with sulphur yellow single roses in May. It attains height of 6 feet. The handsomest shrub of recent introduction. 1-year plants in fall.................. .50  5.00

CLIMBING ROSES:
American Pillar: Strong growing, with huge clusters of single pink roses with yellow centers. These are followed by handsome scarlet seed pods. Extra heavy plants.................. .75  7.50

Dorothy Perkins: Well-known variety, with fleecy clouds of miniature pink roses, each perfectly double. Dainty. Heavy plants.................. .50  5.00

Silver Moon: As indicated in the name, this is a pure white single rose of exquisite shape. The foliage is very dark and glossy. Strong bushes .75  7.50

ORDER YOUR BULBS EARLY

Shipment can be made at any desired time, but it will insure you against disappointment if the order is booked while stocks are complete. The same may be said of plants.

26
LIST OF ROCK PLANTS

Description of these may be located either in the perennial list (where they appear in alphabetical sequence) or through the index in the back of this booklet.

Most of them like sun. Those marked LS do well in lightly shaded position, while S indicates deeper shade.

NEW ROCK PLANTS FOR FALL

My assortment of rock plants will be more than doubled for fall listing, and several things heretofore most difficult to obtain will be offered. September is suggested as an excellent time to transplant most of these. If you’re interested, ask for this list—of course it will be mailed to spring customers without request. Issued in August.

27
The Vogue of Plant Gifts

Nothing is quite so acceptable to the owner of the most modest or the most pretentious garden, as the gift of some choice plants or bulbs, whether to mark an anniversary or to express appreciation of hospitality or a favor. It goes without the saying that something out of the ordinary would be especially suited for such a gift.

At Christmas Time

In mid-winter gladiolus bulbs are available and appropriate, lending themselves to those dainty and mysterious packages with which Santa Claus delights even the "old folks" at holiday time. Too, we often send the bulbs direct, enclosing the donor's card.

A Few Combinations Worth While

Linum Perenne with Papaver Rupifragum.
Blue Myosotis, Arabis Alpina and Alyssum Saxatile.
Veronica Prenja as a low border in front of Irises.
Iberis Toreana with Iris Queen of May.
Aster "Feltham Blue" with Harpalium Rigidum as a background.
Viola Jersey Gem with Cheiranthus Allionni.
Eryngium Oliveranum with "Halley" Gladioli in foreground.

PACKING PLANTS FOR SHIPMENT

Packed with care in damp moss from our own woods, plants usually reach their destination as fresh as when dug. They are sent with equal success to customers in Oregon and New York. Parcel post for small packages, express for the larger ones.
How to Reach the Crissey Alpine Gardens

My place is 10 miles east of Gresham, on the main Bull Run Road, and adjoins Dodge Park. I am NOT near Boring, which is only a postal address. The picturesque location of the farm, and the attractive country traversed in reaching it, well repay the trip, to say nothing of the flowers to be seen at the gardens from early spring until late fall.

Harvesting Your Gladiolus Bulbs

About November 1 dig your bulbs, cutting the tops off right at the bulb. Dry in shady, airy place for a few days, then twist off the old last year’s bulb, which is of no further use. The little bulbs, if of valuable varieties, are put in paper bags and kept to plant like peas in the spring. The large bulbs are dried a few days longer, then stored in cool, dry place, free from frost, in open boxes or trays.

Digging Your Dahlias

Wait until a killing frost withers bloom and foliage. Dig on a dry day, store the same evening, if desired, in covered boxes in cool, not-too-dry place. Covering with dry sand or earth might be advisable with very valuable dahlias. Do not cut the tubers apart until they show sprouts in the spring.

Why Not Have Two Gardens

Why not have TWO gardens? Plant rows of flowers in the back yard or vegetable garden, to be used exclusively for cutting. The more ornamental planting about the house may then be left undisturbed to beautify the grounds.

$2 For a Whole Hundred Gladiolus Bulbs
Gather Armfuls of Gorgeous Flowers

To encourage very liberal planting, I offer a choice mixture in small bulbs, ranging from one-half to an inch in diameter, at only $2.00 the hundred, five hundred for $9.00, one thousand for $17.00, all charges prepaid. Not less than 100 sold. They will all bloom this season if planted reasonably early, all will be magnificent bulbs for another year. Many very fine named sorts are included. Club with friends and get a thousand or plant a thousand in your own garden and cut armfuls of gorgeous bloom for your house and for friends. Dozens of appreciative letters express astonishment and delight at the results obtained from bulbs sent out on this offer in former years.

Plant these bulbs about 4 inches deep and 4 inches apart in sunny location.

$1.25 For a Hundred Smaller Bulbs
An Unbeatable Value

This is the same superior mixture offered above, but the bulbs are smaller, most of them being around a quarter and three-eighths inches in diameter—a few half inch ones. If planted early a very large percentage will bloom. All will make fine bulbs for harvest this fall. 500 will be sent for $5.50, 1000 for $10.00. Not less than 100 sold. Yes, they all go prepaid at prices quoted.
Instructions
For Ordering

Gladiolus bulbs and irises are sent prepaid at prices quoted; all other items in this catalogue go with transportation charges added or collect.

Six plants of one sort are sold at the dozen rate, fifty take the hundred rate.

Shipment can be made at any time after January 1, weather permitting. Specify date desired. Pacific Coast orders are usually dispatched about March 1, those for colder sections in April. WHENEVER DELIVERY IS DESIRED, EARLY ORDERING IS RECOMMENDED THAT YOU MAY GET THE BENEFIT OF UNBROKEN ASSORTMENTS.

Remittance or bank reference should accompany the order. Either check, postal or express order is acceptable. Please do not send orders in smaller amount than $1.00.

The greatest care is taken to supply stock true to name and an effort is always made to satisfactorily adjust any error in this regard, but in accordance with the custom of the trade, no guarantee is given.

OUR GARDEN STORE ON THE BASE LINE ROAD

T HIS IS JUST A BRANCH SALES ROOM, ESTABLISHED WITH THE IDEA THAT MANY FRIENDS MIGHT FIND IT MORE CONVENIENT TO PURCHASE THERE RATHER THAN TO COME OUT TO THE FARM.

The location is Rockwood, exactly 10 miles east of Portland and on the Base Line Road. The building is on the north side of the road, just as you enter the village, and carries a conspicuous sign.

Gladiolus bulbs, dahlias and a large number of perennial plants will be available there, and there is rather an interesting planting of irises and perennials to be seen in bloom at the right season. A large plot of purple violas is especially worth seeing any time after mid-April, if the season is a normal one. These rich purple flowers excited much comment during the past season. Plants will be available there.

CUT FLOWERS

Can be had at very reasonable prices, and in large quantities if the occasion demands it. A day's notice should be given, that these may be brought from the farm.
